

# Horsford Gardens

## SHADY BORDER

Beneath the shade of our twin locusts, the shady border features common and unusual shady groundcovers, flowers, and foliage. A great picnic spot with our well worn swing.

## ROCKERY

Under the library windows, bend down to inspect the dwarf and creeping annuals, perennials, and herbs.

## PERENNIAL FARM

Take this path to shop through our rows and rows of perennial growing area. Our gardeners can help locate and suggest plants for your garden from our well signed and tagged perennials.

## HERBS

At this intersection of garden paths, enjoy the pleasant aroma of our herb plantings.

## GROUNDCOVERS

North of the glass greenhouses, the shady groundcovers wage turf war. See which ones are out competing this year.

## GREENHOUSE GLORY

Each Spring we plant our glass greenhouse borders with unusual annuals from the greenhouse. Come Summer, these gardens explode with color and whimsy!

## CENTRAL DISPLAY

Seasonal and ever-changing plants in bloom as well as groupings of plants that grow well together.

## GARDEN SHOP

## DWARF SHRUB BORDER

North of the path to the office, the dwarf shrub border features small flowering shrubs and dwarf conifers. Make sure you don't miss our 7' Harry Lauder's Walking Stick!

## FLOWERING SHRUB BORDER

Edging the garden center lawn from our drive and parking is a collection of flowering shrubs that blooms from April through August. Forsythias, magnolias, lilacs, spireas, ninebark, viburnums ... all unpruned - as nature designed.

## HARDY ROSES

In front of the antique rail fences, discover rose varieties that survive our winters without help, our summers without pesticides.

## HONEY LOCUST

In the dappling shade of a Honey locust grove, you will find for sale an extensive variety of shrubs, evergreens, vines, and roses that we grow.

## SUNNY BORDER

Freed from the shade of the locusts, our sunny border is a classic arrangement of tall to short, sun-loving perennials.

## DAYLILIES & IRIS

Alternate blocks of daylilies and Siberian iris turn our growing beds into spectacular displays in their seasons. Maps, descriptions, and bloom time information are available.
